3. Property Assemblage Guidelines

Community Development Director Scott Mangum updated the EDC on the matrix developed related to Property Assemblage Guidelines. The Development Scenarios and Considerations were discussed with the group.

Commissioner Ehrenberg suggested adding a category related to social impact. The group then discussed the idea of adding categories that reflect the benefit to everyone in the community versus benefit to the Village and/or benefit to economic growth and development. Several Commissioners concurred that it was a fine line to thread between social benefits and getting the maximum economic return on a development. Discussion around the low-hanging fruit category occurred. The group discussed some of the items that could be considered with this category.

The industrial area around Lincoln Avenue and Devon Avenue was overviewed by the EDC. Some potential ideas and marketing for this area was discussed. Mr. Mangum provided a site-specific example at 3420 Devon Avenue. He stated that the site was located in the B-2 Zoning District and was approximately 24,000 square feet with a 5,300 square foot building. The surrounding properties and areas were discussed as considerations. The group discussed the potential impacts of the residential area located directly north of the property and potential development concerns that could arise depending on what was developed on the site.

Mr. Mangum provided another site-specific example at 6700-6734 Lincoln Avenue. He stated that the site was located in the B-1 Zoning District and was approximately 1.3 acres with two existing buildings surrounded by the R-3 Residential Zoning to South and West only separated by an alley. The group discussed the site-specific challenges.

Mr. Mangum overviewed the group's consensus from the discussion. A few adjustments were to the matrix with different items being flushed out in greater detail. The final list of Development Scenarios included Village Use (municipal offices, etc.), Open Space – Parks, Other Public Use/District (e.g. School), High Revenue Generating, Low to Moderate Revenue Generating Use, Net Negative Revenue to Village, and No Revenue (Not for Profit). The finalized consideration list included Low Hanging Fruit, Compatible with Existing, Long-Range Plan, Existing TIF District, ESG - Impact on neighboring properties, Challenges, and the Village's Role.

4. 2023 EDC Biennial Report Draft and Discussion
