Gas Grill Handout

A permit is required to install a gas grill. If this is part of a patio permit, provide this information along with that permit information and submittal.

An application must be submitted through our online portal at lincolnwood.onlana.com (you can also access the portal by scanning QR code above). You will need to apply for a “Gas Line” permit.

The online permit application will require the following information:

- Homeowner Information including name, address, telephone number and email address
- Contractor Information: If contractors have not been selected at the time of application submitted, please note that a permit will not be issued until all contractors have been identified and registered with the Village.
- A detailed and enumerated proposal(s) from all contractors for all work with cost breakout, signed by the owner and contractors, scanned in pdf and uploaded – refer to [Illinois 815 ILCS 513/15 Section 15](#)

As a part of the application, you will be required to upload a scanned pdf copy of a recent [dated within five (5) years] legal plat of survey (**not** a Google Earth image, sketch or a site plan) showing the proposed location of the gas grill with dimensions. Indicate on the plat of survey the location of the gas meter. On the plat of survey, draw a line of where the gas line is being installed and indicate the lengths of all piping segments. Indicate all locations for the shut off valves.

- All below grade gas lines shall be a minimum of eighteen (18) inches below grade. CSST (Corrugated Stainless-Steel Tubing), if buried, shall be labeled and listed for direct burial.
- Approved natural gas plastic pipe, buried only, shall not be operated at pressures greater than 100 psi. Ensure a yellow trace wire is also installed when gas pipe has been buried. (* Call for inspection prior to burial of gas piping.)

For all direct burial installations, call J.U.L.I.E at either 811 or 1-800-892-0123 forty-eight (48) hours before you dig per Illinois State law. This is to verify the location of underground utilities in the area. The service is provided to you at no charge.

Work must begin within 180 days of permit issuance. Work must be completed within 1 year. The permit card must be posted in a visible location to the street and must remain posted until final Village inspections are approved. Permit does not confer any approval or right to disregard any property covenant or a condominium/ homeowner’s association restrictions. Please call (847) 673-7402 a minimum of 24 hours prior to the requested inspection time. Please note that inspection appointments are based on availability. A failed inspection may require additional re-inspection fees.

Per Village of Lincolnwood ordinance for Site Management chapter 14.15.10(M) Permissible hours of construction:

Monday through Friday: 7:00 am to 6:00 pm

Saturday: 7:00 am to Noon

Sunday: Construction prohibited
