The Village's basketball courts, picnic shelter, outdoor bathrooms, and community center continue to remain temporarily closed. The Village is monitoring guidance from the IDPH and the CDC, and will make adjustments to these closures when possible.

The Village's Parks and Recreation Department is anxious to fully serve our community's recreational needs and pursuits once again. At this time, we understand that the most important service we can provide is to help prevent the spread of COVID-19. We thank you for your understanding and wish you continued wellness.
