An increase to the lease amount in the amount of $5,000 is included for an annual payment of $60,000 per year. Mr. McNellis presented the item using power point. A recommendation from the Plan Commission for special uses, special sign and certain variations for 6755 Cicero Avenue was summarized. The property is currently zoned B2. It is 31,817 square feet in area, the frontage is on Cicero and Pratt Avenues and the existing building is 4,300 square feet in area.

The staff development review team reviewed the request on February 15, 2017 and provided comments to the petitioner.
The proposed site plan was reviewed.

The requested zoning relief is as follows:

**Special Uses**
- To allow a restaurant over 5,000 sq feet in the B2 zoning district
- To allow parking in the front yard setback and the corner yard setback
- To allow a business within 150’ of a residentially-zoned property to operate after 11:00 p.m. on any day

**Variations**
- To allow a reduced transition yard across east property line, form 30’ to 10’
- To allow less than the required number of off-street parking spaces (55 required, 51 provided)
- To allow parking spaces and parking lot drive aisles to be less than the minimum required dimensional standards

**Landscaping Variations**
- To allow less than required minimum landscape buffer along the South and East...
Property lines
- To allow less than the required minimum perimeter landscaping areas
- To allow less than the required minimum interior landscaped parking lot islands
- To allow less than the required minimum foundation landscaping areas

Signage Variations
- To permit a pole/pylon sign
- To allow a special sign with a sign face greater than maximum permitted 48 sq feet
- To allow an illuminated freestanding sign within 75’ of residentially zoned district
- To allow a special sign closer than 10’ to an exterior property line
- To allow a wall sign on north building elevation greater than maximum permitted area

Building Materials Variations
- To allow less than 75% of each exterior building elevation to maintain required high-quality materials
- To allow masonry stucco as more than a minor or accent building material

The Plan Commission held a public hearing on April 6, 2017. During the hearing the petitioner noted that a significant improvement will be made to the existing site. Speakers at the hearing noted that they are excited for a “white linen” restaurant, supported a late night dining option, supported redevelopment, agreed with uniformity in restaurant hours and expressed concern regarding the white building color.

The Commission supported the six staff recommended conditions which are as follows:

- Agreement to maintain hedgerow proposed in CiceroAvenue ROW
- Painted masonry wall permitted only on west side, facing into restaurant site masonry all facing residential properties would be painted only if agreed to by all adjacent residential properties
- Sound from walk-in cooler fan/motor to comply with environmental performance standards in zoning code at property line between the restaurant and residentially-zoned property. Any necessary testing to be undertaken to confirm compliance at the petitioner’s expense
- Provide copy of offsite parking agreement
- Prior to certificate of occupancy, security plan for building and property to be approved by Police Chief
- Prior to occupancy, install Knox box at entrances chosen by Fire Department

The Plan Commission recommended 4-1 to approve the requested variations. The dissenting vote was by Commissioner Goldfein due to objections regarding justification of the degree of relief requested related to landscaping.

The petitioner’s architect made a presentation regarding the proposed development using power point.

Trustee Patel confirmed with the petitioner that all the conditions are acceptable.

Discussion ensued regarding the proposed plan.
Trustee Patel moved to direct the Village Attorney to prepare an Ordinance to include the recommended variations and conditions, seconded by Trustee Spino.
